

CREATE AND CONFIGURE IBM CLOUD SERVICES

Create NODE-RED Service

Date	15 October 2022
Team ID	PNT2022TMID47905
Project Name	SIGNS WITH SMART CONNECTIVITY FOR BETTER ROAD
Maximum Marks	4 Marks

The screenshot displays the Node-RED web interface within a browser. The browser's address bar shows the URL: `node-red-obzpr-2022-11-05.us-east.mybluemix.net/red/#flow/f2b3d12caa9ddc0f`. The Node-RED interface features a central workspace for building flows. In this workspace, a flow named "Flow 1" is visible, consisting of two nodes: a "test" node and a "msg.payload" node, connected by a wire. The left sidebar contains a "filter nodes" search bar and two categories of nodes: "common" (including inject, debug, complete, catch, status, link in, link call, link out, and comment) and "function" (including a function node). The right sidebar shows the "debug" console, which displays four log entries. Each entry shows the timestamp "11/5/2022, 12:15:30 PM" (or "12:16:00 PM" for the last entry), the node ID "node: f2f2649a.0d0d98", and the message "Hello Node-RED!" with a payload of "string[15]". The bottom of the browser window shows the Windows taskbar with various application icons and the system clock indicating "12:16 PM".
